Discussion of employee health provider – III-A:

The clerk reviewed with the council the notice that the city received for \$41,040 due for unfunded insurance claims. He followed this discussion with the discussion earlier last month regarding the continuation of the III-A and the financial problems they encountered with an excess of high medical claims. In a telephone conference call between the cities of Jerome, Hailey, and Chubbuck it was felt the notice of assessment while an obligation of the cities, the III-A board had not followed the joint power agreement which required 60 day notice. The notice given allowed for nine days. The clerk indicated that if the full assessment of roughly \$1.6 million was not paid by December 6, the Dept. of Insurance would consider the III-A insolvent. Continuation with III-A was not deemed in the best interest of the city to continue. The Mayor indicated the payment of the obligation was not critical and recommended waiting until a determination was made by the Dept. of Insurance.

Council discussed various course of action such as writing a letter indicating the assessment would be paid but may not be paid within the time period demanded. Discussion on the penalty referenced in the letter. Clerk and attorney both indicated the penalty as referenced may be inappropriate and not binding given the lack of 60 day notice for the assessment. If III-A continues in business, and the city withdraws, then a 12 month penalty would be applicable.

Motion by Councilman Day to authorize the Mayor, at his discretion, the authorization to make the payment seconded by Councilman Zimmermann.

The Mayor asked the clerk to poll the council.

Both the city and county have reviewed the plan and feel its objectives have not changed from the original document.
